

BUSINESS MINOR (M074)

The Business Minor will provide students with a broad understanding of business theory, practices, and applications within the fields of marketing, accounting, finance, operations, and ethics. This minor is beneficial to students of all majors who envision careers that require a foundational knowledge of business principles.

All courses must be taken for a letter grade, with a grade of C- or better. Students may overlap 8 upper-division units between their major and minor, there is no restriction for overlapping lower-division units. Students majoring in International Studies - International Business, Business Psychology and/or Business Economics cannot declare a minor in business. Students who have declared the business minor, cannot declare the Entrepreneurship and Innovation minor due to overlap of core requirements.
